LINDO NURSERY

CHICO, CALIFORNIA

Established 1907

RETAIL LIST

Season 1938-1939

GROWERS OF CAMELLIAS FOR 25 YEARS

Price subject to change without notice

It is without fear of contradiction that I make the statement that Lindo Nursery has the finest collection of rare and beautiful Camellias in the West. They have been collected from all parts of the United States where Camellias are grown. This collection is now in excess of 200 varieties.

Garden enthusiasts are rapidly coming to realize the value of Camellias and to know their exquisite beauty. It is a beautiful shrub even out of blooming season but the bloom makes it one

of our finest and most permanent plants. Bloom during winter is a feature enjoyed by those who possess Camellias.

In wearing these beautiful blossoms on dress occasions, you may be sure to attract the admiration of all who see them. They can be worn singly or several at a time in solid or mixed colors.

The blooming season at Lindo Nursery last season extended over a period of seven months.

George F. Petersen.

L denotes small lining out stock in 2¼ inch pot.

Your inquiry on the following varieties is invited. Prices and other information will be furnished on request.

Angelo Cochet	Dorsii	Grandiflora Rosea	Lavina Niggi	Mrs. H. B.	Rainy Sun	Sarah Frost
Anna Frost	Duke De Orleans	Great Eastern	Lena Superba	Streeter	Reine Des Fleurs	Soucholei
Belle Romana	Elata	Hollyhock	Matsukasa	Nobelissima	Rev. John	Triumphus
Christmas Red	Fanny Bolis	Imperator	Mme. Faucilon	Nonpareil	Bennett	Variegated
Countess of Derby	Fimbriata Plena	John G. Drayton	Montironi	Panache	Rosita	Bidwell
Countess of	Glorie De Nantes	Lady Hovey	Mrs. Abby P.	Pink Star	Rouge	Wakanoura
Orkney	Governor Mouton	Lady Vansetti	Wilder	Prof. Sargent	Rubra Virginalis	Variegated

Having many plants not listed here we encourage your inquiries for varieties you may want. We are also in close touch with other sources of Camellias and are glad to help you when possible.

See Camellia culture and descriptions on the reverse side of this sheet.

LINDO NURSERY

This collection embraces the rare, the unusual, and extremely large Camellias as well as the prim symmetrical florist types. Due to limited space, descriptions given below are brief, giving only general color and characteristics of blooms described.

Infinitely more could be said by way of describing the unbelievable beauty of these flowers. Further details will be furnished on request.

Alba Plena—Pure white, full double symmetrical form medium large.

Anne Lindberg—Deep red peonia form showing stamens, medium large.

Apple Blossom—Coloring almost exact duplicate of apple blossoms.

Aspacia—Deep red, large irregular with an occasional white blotch.

Auguste Delfosse—Double carmine red, large full flower.

Belgian Red—Medium clear red, full double symmetrical form, medium large.

Belle Jeanette—Deep pink with white blotches, full double, rather flat, symmetrical, medium large.

Campbell—Deep pink, double irregular form showing stamens, large, profuse, dense shrub.

Candida Elegantissima—Deep pink blotched with white, semi double, irregular form, extremely large.

Chancellor—

Chandleri Elegans—Deep pink blotched with white, semi double pompon centers, extremely large.

Cleviana—Red, large peonia form.

Cheerful—Red, double showing stamens, symmetrical, medium large.

Colonel Firey—Red, extreme double, very symmetrical, large.

Comte De Gomer—Delicate pink background penciled and specked with old rose, full double, symmetrical medium large.

Daikaguara—Deep pink, double irregular form, large.

Daikaguara Var.—Same as above except for white blotches, sometimes extremely variegated.

Dante—Pure white, full double symmetrical, serrated petals, medium large.

Donkilari—Red blotched with white, sometimes solid red, sometimes extremely variegated, semi double, symmetrical form showing irregular formed stamens, large.

Duc De Bretagne—Pink.

Elena Nobile—Bright red, full double large.

French Peonia—Deep pink, double, symmetrical medium large.

Guilfolius Halena—

Hikari Gengi (Herme)—Three distinct colorings from delicate to deep pink, double irregular form showing stamens large.

Jennie Lind—White with occasional pink penciling, full double symmetrical form, medium large.

John Laing—Pink, full double, symmetrical medium large.

Kumasaka—Deep pink, petals beautifully veined, double irregular form showing stamens, large.

Lucida (Cheerful)—See Cheerful.

Madam Labois—Deep red, double, symmetrical medium large.

Marie Moren—Rose pink, double irregular form showing stamens medium large.

Mathotiana Alba—White, occasionally a pink spot appears on a flower, extreme double, symmetrical, extremely large.

Niege De Oree (Purity)—Pure white fully double, symmetrical, medium large.

Peoniaflora—White with pink blotches extremely large with large compact pompon centers, very irregular form.

Pink Perfection—Delicate pink, full double, symmetrical, medium large.

Pride of Rosebud Farm—Red with a few white blotches, semi double with many stamens, large.

Red Clarke—Deep rose pink, fully double, symmetrical, medium large.

Red Eagle—Very large pink semi double showing stamens.

St. Andre—Red, pompon center, medium.

Stilson Vallevareda—Medium pink, with white blotches, extreme double, very symmetrical, large.

The Dove—Small white loosely formed flower showing stamens.

Thompsoniana—Delicate pink specked with deep pink, double irregular pompon type, medium large.

Tricolor—See Hikari Gengi.

Vallevareda—Deep pink outer petals shading to light pink inner petals, extreme double, very symmetrical, large.

Variegated Governor—Pale pink striped with red, symmetrical, medium size.

Wagner—Red double, symmetrical medium large.

Warrata—Very deep red, double having an outer row of petals enclosing a compact pompon, very irregular form, medium large.

Warrata White—Similar to Warrata except for white color.

Wm. S. Hasti (Mathotiana Alba)—Extremely large double red, symmetrical form showing stamens.

The following descriptions are of the varieties shown at the bottom of the reverse side. The supply of these is limited, therefore they are not placed in the regular list.

Angelo Cochet—

Anna Frost—Double, medium large, pale pink-striped rose.

Belle Romana—Large, symmetrical light pink, extremely striped and splashed with crimson.

Christmas Red—Small red single flower, yellow stamens.

Countess of Derby—

Countess of Orkney—White, pink stripes.

Dorsii—

Duke De Orleans—

Elata—

Fanny Bolis—Similar to Candida Elegantissima.

Fimbriata Plena (Fimbriata Alba)—Pure white petals fimbriated or fringed, symmetrical medium large.

Glorie De Nantes—

Governor Mouton—

Grandiflora Rosea—Deep pink semi double showing prominent stamens, extremely large.

Great Eastern—Very dark red, occasional white spot, peonia form medium large.

Hollyhock—

Imperator—Very large double Christmas Red, irregular form showing some stamens medium large.

John G. Drayton—Pure white double loosely formed, symmetrical flower showing stamens, large.

Lady Hovey—

Lady Vansetti—

Lavina Niggi—White, red stripes.

Lena Superba—Large semi double red.

Matsukasa (Pine Cone)—Deep pink blotched with white, very high centered, symmetrical form.

Mme. Faucilon—Light rose pink symmetrical medium flower.

Montironi—Extremely large white, sometimes streaked light pink.

Mrs. Abby P. Wilder—Medium pink peonia type, medium large.

Mrs. H. B. Streeter—

Nobelissima—Pure white, double irregular form with pompon centers, showing stamens when fully open, medium large.

Nonpareil—

Panache—Medium size, full double, pale pink striped deep pink.

Pink Star—Light pink semi double showing stamen, large.

Prof. Sargent—Double, crimson peonia form.

Rainy Sun—Deep pink semi double showing stamens, large.

Reine Des Fleurs—Large double, high centered, red streaked white.

Rev. John Bennett—Semi double salmon pink, stamens.

Rosita—Medium size symmetrical, rose pink.

Rouge—

Rubra Virginalis—

Sarah Frost—Small symmetrical red flowers.

Soucholei—

Triumphus—

Variegated Bidwell—Semi double white, pink stripes, medium large.

Wakanoura Variegated—Semi double regular form, white variegated with deep pink stripes, high centered.

PLANTING INSTRUCTIONS

Camellias will grow in full light if caution is taken to provide them with shade during the first two or three seasons. Gradually remove the shade until the plants are accustomed to full light. However, an east exposure providing morning sun and afternoon shade is ideal.

When plants are received from the nursery be sure to avoid deep planting, placing the plant at the same depth at which it grew in the nursery. If the plant is balled do not remove the burlap. Peat moss or leaf mould should be generously applied

and spaded into the ground before planting.

An acid soil should be obtained for Camellia culture. Aluminum sulphate and cottonseed meal are excellent fertilizers. Avoid an excessive amount of Aluminum sulphate, as it is extremely dangerous. A thirty inch plant could stand a scant handful of Aluminum sulphate to three or four of cottonseed meal. This may be repeated two or three times at intervals of one month. Application should be made to larger or smaller plants in their proportion. Constant moisture is necessary, but avoid a soggy condition. Camellias also like water on the foliage.

Gentlemen:

I have your letter under date of
Jan. 18 in which you request any catalog
which I might have to offer. I am
hereby enclosing a copy of my Camellia
list.

I have a stock of these plants in
excess of 30,000, embracing a collection
of more than 200 varieties, only part of
which are listed on the enclosed list.

Yours very truly,

George F. Petersen
